

## AN INNOVATIVE DUO OF HIGH PERFORMANCE RETINOL-BASED ANTI-AGING SERUMS

- **Medium and extra strength serums offer an adapted anti-aging treatment solution for all skin types**
- **Anti-wrinkle active Retinol Complex reduces the appearance of signs of skin aging\***
- **Clinically proven results: Decrease in wrinkle depth around the eye contour and crow's feet area. Increase in skin hydration, elasticity and skin texture comfort.**

Dermaceutic Laboratoire, an international leader in peel and cosmeceutical treatments, is delighted to announce the launch of **two new high performance anti-aging serums**, Activ Retinol 0.5, and Activ Retinol 1.0. These innovative highly concentrated formulae combine **powerful active ingredients including Retinol Complex**, pure Vitamins C & E and essential minerals to support the natural cell regeneration process and reduce the appearance of signs of skin aging.

As the latest additions to Dermaceutic's Prevent line of cosmeceuticals, the serums have been designed to accompany in-clinic aesthetic treatments such as the Dermaceutic Milk or Cosmo Peel Treatments, as well as acting as a daily boost for skincare routines. These medium and extra strength products contain optimal concentrations of Retinol, assuring top-end results for younger-looking, revitalized and smoother skin.

In clinical trials, **90% of patients reported that this treatment improved skin texture.**

Up to

**40% decrease** in crow's feet volume

**33% decrease** in wrinkle depth

**38% increase** in skin hydration

### PROVEN RESULTS

In clinical tests conducted on 21 subjects over 28 days, biometric results measured a **decrease of up to 40% in crow's feet volume**, a **decrease of up to 33% in wrinkle depth** and an **increase of up to 38% in skin hydration**.

In addition to boosting the action of aesthetic treatments, these innovative products can also be used independently to optimize the efficacy of daily skincare products, for longer-lasting results. They can be applied one to two times daily depending on skin tolerance.

### RESULTS AFTER 28 DAYS

DAY 0

DAY 28

### ACTIVE INGREDIENTS

Activ Retinol 0.5 and Activ Retinol 1.0 feature a high dosage of performance boosting ingredients to achieve top end results:

**Retinol Complex**, proven to accelerate cellular metabolism, repairs and protects dry and damaged skin. This powerful active ingredient stimulates the renewal of skin cells and regulates the migration and transformation of keratinocytes, making skin appear smoother and younger-looking.

**Vitamins C and E**, antioxidant actives which stimulate collagen synthesis and enhance protection against oxidative stress, reducing signs of skin aging. Vitamin C increases skin elasticity and improves skin homogeneity, while Vitamin E improves skin hydration and barrier function.

The unique synergy of these powerful ingredients ensures added nutrients such as essential minerals, skin restoring and hydrating actives, penetrate deeply into the skin, boosting the performance of cosmeceuticals and offering high comfort and optimal efficacy for consumers.

### ABOUT DERMACEUTIC

Dermaceutic Laboratoire is the partner of choice for over 30,000 aesthetic dermatology specialists throughout the world. One of the first laboratories to develop products using ingredients such as Retinol, Hyaluronic Acid, Vitamin C Complex, Retinol and Glycolic Acid (now standard ingredients in skincare), Dermaceutic has led the cosmeceutical industry in the discovery of effective combinations of ingredients for use in aesthetic dermatology. The efficacy of Dermaceutic's cosmeceutical and peel treatment protocols is supported by extensive clinical trials, and the company's collaboration with industry-leading practitioners from around the globe.
